Volume 29, No. 1, January 1989

Vaccinia-Interleukin 2 Recombinant Virus or Exogenous Interleukin 2 Does Not Alter the Magnitude or Immune Response Gene Defects of the Cytotoxic T-Cell Response to Vaccinia Virus in Vivo. <i>A. Mullbacher, I. A. Ramshaw & B. E. H. Coupar</i>	1
Intrinsic Cell Membrane Antigens Recognized by Antichromatin Autoantibodies. The Membrane Antigens Do Not Derive from the Nucleus. <i>O. P. Rekvig</i>	7
S-Protein Is Synthesized by Human Monocytes and Macrophages in Vitro. <i>G. Hetland, H. B. Pettersen, T. E. Mollnes & E. Johnson</i>	15
Activity of Two Types of Fc Receptors, FcγRI and FcγRII, in Human Monocyte Cytotoxicity to Sensitized Erythrocytes. <i>J. G. J. Van de Winkel, G. J. C. Boonen, P. L. W. Janssen, A. Vlug, N. Hogg & W. J. M. Tax</i>	23
The Relation between Cutaneous Blood Flow and Cell Content in the Tuberculin Reaction. <i>J. Swanson Beck, J. H. Gibbs, R. C. Potts, Emtithal S. Jawad, T. Kardjito, V. A. Spence & J. M. Grange</i>	33
IgG in Murine Intestinal Secretions. Aging Effect and Possible Physiological Role. <i>S. Senda, E. Cheng & H. Kawanishi</i>	41
A Model System for the Analysis of B-Cell Activation and Effector T-Cell Functions. T Cell-Dependent B-Cell Responses Facilitated by Anti-I-A Antibodies. <i>P. Pereira, A. Bandeira, B. Kleine, C. Marquez, A. Coutinho & C. Martinez-A</i>	49
Recombinant Tumour Necrosis Factor (TNF) Fixed to Cell Monolayers Retains Its Cytotoxic and Growth-Stimulatory Activity. Evidence That Internalization of TNF is Not Necessary for Induction of Biological Effects. <i>E. Hofslis & J. Nissen-Meyer</i>	57
Increased Natural Killer Cell Activity and Numbers of Leu-7 and Leu-11b (CD 16)-Positive Cells in Bone Marrow of Children in Remission from Acute Lymphoblastic Leukaemia. <i>D. Sørskaar, Ø. Førre & S. O. Lie</i>	65
High Rate of HLA Class II mRNA Synthesis in Rheumatoid Arthritis Joints and Its Persistence in Culture: Down-Regulation by Recombinant Interleukin 2. <i>A. M. Kissonerghis, R. N. Maini & M. Feldmann</i>	73
Decreased Natural Killer (NK) Susceptibility of Human NK Target Cells after Phosphatidylinositol-Specific Phospholipase C Treatment. <i>C. Ugglä, C. Une, I. Axberg, M. Jondal, R. W. Knowles & A. Örn</i>	83
Purification of a Major <i>Mycobacterium bovis</i> Antigen for the Diagnosis of Bovine Tuberculosis. <i>T. Fifis, P. Plackett, L. A. Corner & P. R. Wood</i>	91
Immunohistological Analysis of Human Fetal Lymph Nodes. <i>J. Westerga & W. Timens</i>	103
Molecular Analysis of the Human Serum Amyloid A (SAA) Gene Family. <i>G. H. Sack, Jr., C. C. Talbot, Jr., H. Seuanez & S. J. O'Brien</i>	113
SHORT PAPER. Inhibition of IgG-Mediated immunosuppression by a Monoclonal Anti-Fc Receptor Antibody. <i>B. Heyman</i>	121

Volume 29, No. 2, February 1989

Dipeptidyl Peptidase IV in Human T Lymphocytes. Impaired Induction of Interleukin 2 and Gamma Interferon Due to Specific Inhibition of Dipeptidyl Peptidase IV. <i>E. Schön, H.-U. Demuth, E. Eichmann, H.-J. Horst, I.-J. Körner, J. Kopp, T. Mattern, K. Neubert, F. Noll, A. J. Ulmer, A. Barth & S. Ansgör</i>	127
Enhancement of Natural Killer Cell Activity by <i>Nocardia opaca</i> Fractions. <i>R. Barot-Ciorbaru, T. J. Linna, M. R. Patel, J. Altman & C. Carnaud</i>	133
Trypsin Does Not Reconstitute Responsiveness to Lipopolysaccharide in the Strain C3H/HeJ, but Is a B-Cell Mitogen-Like Lipopolysaccharide, Stimulating a Different Subpopulation. <i>S. Cardell & G. Möller</i>	143
Recombinant Protein A of Non-Staphylococcal Origin is Not Mitogenic for Human Peripheral Lymphocytes. Mitogenicity of Natural Protein A is Caused by a Contaminant. <i>U. Persson, M. Inganäs, C. I. E. Smith, I. Hammarström & S. G. O. Johansson</i>	151
Distribution of κ and λ Light Chain Isotypes among Human Blood Immunoglobulin-Secreting Cells after Vaccination with Pneumococcal Polysaccharides. <i>C. Heilmann & T. Barington</i>	159
Enhanced T-Cell Activation Due to Combined Stimulation by Both Endothelial Cells and Monocytes. <i>J. M. Teitel, A. Shore, J. McBarron & A. Schiavone</i>	165

Amyloidosis Related to a λ IV Immunoglobulin Light Chain Protein. <i>M. D. Benson, F. E. Dwulet, D. Madura & G. Wheeler</i>	175
Tumour Regression after Treatment with Animated β 1-3D Polyglucose Is Initiated by Circulatory Failure. <i>R. Seljelid</i>	181
Migration Pattern of Lymphocyte Subsets in the Normal Rat and the Influence of Splenic Tissue. <i>J. Westermann, K. U. Willführ, H. J. Rothkötter, F. J. Fritz & R. Pabst</i>	193
Production of Human Antibodies to Bee Venom Phospholipase A ₂ in Vitro. <i>W. Held, M. Stucki, C. Heusser & K. Blaser</i>	203
Generation of Inositol Phosphates during Triggering of Cytotoxicity in Human Natural Killer and Lymphokine-Activated Killer Cells. <i>A. K. Ståhls & O. Carpen</i>	211
Comparative Analysis of Immunodeficiency in Patients with Monoclonal Gammopathy of Undetermined Significance and Patients with Untreated Multiple Myeloma. <i>L. M. Pilariski, E. J. Andrews, H. M. Serra, B. A. Ruether & M. J. Mant</i>	217
IgG Subclasses of Pneumococcal Antibodies—Effect of Allotype G2m(n). <i>H. Sarvas, N. Rautonen, S. Sipinen & O. Mäkelä</i>	229
Liver Sinusoidal Blood Containing Natural Killer-Like Cells. <i>B. Lukomska, W. L. Olszewski, T. Ryffa, A. Ziolkowska & D. Sadowska</i>	239
Reduced Erythrocyte CR1 (CD 35) Receptor Function and Complement Opsonization in Factor I-Deficient Patients is Restored by Plasma Infusion. <i>H. H. Jepsen, B. Teisner, J. M. Rasmussen & S.-E. Svehag</i>	247
Volume 29, No. 3, March 1989	
EDITORIAL. Human Monoclonal Antibody Technology—Are its Achievements, Challenges, and Potential Appreciated? <i>K. James</i>	257
Interferon β /B-Cell Stimulating Factor 2/Interleukin 6 Affects Glycosylation of Acute Phase Proteins in Human Hepatoma Cell Lines. <i>A. Mackiewicz & I. Kushner</i>	265
Monoclonal Antibodies Specific for Variable and Constant Domains of Murine λ Chains. <i>B. Bogen</i>	273
The Generation of Guinea Pig T-Cell Lines Reactive to Antigens from <i>Mycobacterium tuberculosis</i> . Selected Lines Induce Erythematous Skin Reactions. <i>K. Haslov & I. Heron</i>	281
Stimulation of Interleukin 6-Like B-Cell Differentiation Factor Production in Human Adherent Synovial Cells by Recombinant Interleukin 1. <i>M. Harigai, M. Hara, K. Norioka, A. Kitani, T. Hirose, K. Suzuki, M. Kawakami, K. Masuda, M. Shinmei, M. Kawagoe & K. Nakamura</i>	289
Heterogeneity of Degradation of B-Cell Endocytosed Monoclonal Antibodies Reacting with Different sIgM Epitopes. <i>E. Ruud, T. Michaelsen, G. M. Kindberg, T. Berg, S. Funderud & T. Godal</i>	299
Immunochemical and Biological Reactivity of Human Anti-Lipopolysaccharide IgG Obtained by Screening of Blood Donors. <i>A. Fomsgaard, G.-H. Zhang, G. H. Shand, K. Bendtzen & L. Baek</i>	309
Molecular Characteristics of IgA in Infant Saliva. <i>A. W. Cripps, M. Gleeson & R. L. Clancy</i>	317
B-Cell Differentiation in the Chicken: Expression of Immunoglobulin Genes in the Bursal and Peripheral Lymphocytes. <i>A. Mansikka, T. Veromaa, O. Vainio & P. Toivanen</i>	325
Measurement of Complement Activation in Rabbit Plasma or Serum Using Monoclonal Antibodies against C5a. <i>K. Bergh & O.-J. Iversen</i>	333
Responsiveness of T Cells to Mutant Major Histocompatibility Complex Class I Antigen. II. Role of Stimulator-Type Accessory Cells with Reference to Interleukin 1 Production. <i>H. Watanabe, T. Saitoh & M. Fujiwara</i>	343
Studies on the Role of CD43 in Human B-Cell Activation and Differentiation. <i>M. Wikén, P. Björck, B. Axelsson & P. Perlmann</i>	353
Enhancement of Human B-Cell Proliferation by a Monoclonal Antibody to CD43. <i>M. Wikén, P. Björck, B. Axelsson & P. Perlmann</i>	363
Macrophages and Dendritic Cells during the Early Stages of Antigen-Induced Arthritis in Rats: Immunohistochemical Analysis of Cryostat Sections of the Whole Knee Joint. <i>P. J. Verschure, C. J. F. Van Noorden & C. D. Dijkstra</i>	371
Effect of Physical Exercise on Blood Mononuclear Cell Subpopulations and in Vitro Proliferative Responses. <i>N. Tvede, B. K. Pedersen, F. R. Hansen, T. Bendix, L. D. Christensen, H. Galbo & J. Halkjer-Kristensen</i>	383

Volume 29, No. 4, April 1989

Opioid Peptides Modulate the Organization of Vimentin Filaments, Phagocytic Activity and Expression of Surface Molecules in Monocytes. <i>J. Prieto, M. L. Subirá, A. Castilla, J. L. Arroyo & M. Serrano</i>	391
Dynamics of Complex Formation between Thymocytes and Thymic Medullary Epithelial Cells. <i>P. Hugo & E. F. Potworowski</i>	399
Translocation of Protein Kinase C to Subcellular Fractions of Human Neutrophils. <i>N. O. Christiansen & N. Borregaard</i>	409
Kinetic Analysis of Lymphokine-Activated Killer (LAK) Cells: Lytic Parameters and Determination of LAK Cell Frequency. <i>A. LeFever & S. Micha</i>	417
The Immune Response to Bacterial Dextran. VI. No Correlation between the Frequency of Cells Expressing a Major Anti-Dextran Idiotypic and the Idiotypic Profiles of Specific Antibody Responses. <i>I. Lundkvist, D. Portnoi & A. Coutinho</i>	427
Dual Immunoregulatory Effects of Monoclonal IgG-Antibodies: Suppression and Enhancement of the Antibody Response. <i>E. J. Wiersma, P. G. Coulie & B. Heyman</i>	439
Immunosuppression by a Novel Analgesic-Opioid Agonist. <i>L. Hadjipetrou-Kourounakis, E. Karagounis, E. Rekka & P. Kourounakis</i>	449
N- α -Benzyloxycarbonyl-L-Lysine Thiobenzyl Ester (BLT) Serine Esterase in Human Cytolytic Effector Cells and Cell Line Targets. <i>K. Somersalo & E. Saksela</i>	459
Antibody Responses to Hapten in Thymectomized Mice: Extraordinarily Pronounced Deficiency in IgG1 Production. <i>I. J. T. Seppälä, M. Hurme & O. Mäkelä</i>	469
The Modulatory Effect of Lipoproteins on the Release of Interleukin 1 by Human Peritoneal Macrophages Stimulated with β -1,3-D-Polyglucose Derivatives. <i>L.-T. Rasmussen & R. Seljelid</i>	477
SHORT PAPER. Effects of 12-O-Tetradecanoyl Phorbol-13-Acetate (TPA) on Rat Thymocytes. <i>R. Sasaki, F. Takaku & Y. Miura</i>	485
SHORT PAPER. IgG Autoantibodies against Interleukin 1 α in Sera of Normal Individuals. <i>M. Stenson, L. K. Poulsen, A. Fomsgaard & K. Bendtsen</i>	489
SHORT PAPER. Functional Heterogeneity in Allospecific Cytotoxic T Lymphocyte Clones. III. Direct Correlation between Development of Syngeneic Cytotoxicity and Loss of Veto Activity; Implications for the Mechanism of Veto Action. <i>M. H. Claesson & R. G. Miller</i>	493
Erratum	498

Volume 29, No. 5, May 1989

EDITORIAL. Are Invertebrates Capable of Anticipatory Immune Responses? <i>J. Klein</i>	499
Agonistic Effects of Anti-CD2 and Anti-CD16 Antibodies on Human Natural Killer Killing. <i>C. K. Ugglä, M. Geisberg, M. Jondal & R. W. Knowles</i>	507
Lymphocyte Extracellular Matrix Interactions. Induction of Interferon by Connective Tissue Components. <i>W. Ofosu-Appiah, R. J. Warrington, K. Morgan & J. A. Wilkins</i>	517
The Combination of Major Histocompatibility Complex (MHC) and Non-MHC Genes Influences Murine Lymphocytic Choriomeningitis Virus Pathogenesis. <i>Y. L. Eyler, C. J. Pfau, K. S. Broomhall & A. R. Thomsen</i>	527
Inheritance of a Large Deletion within the Human Immunoglobulin Heavy Chain Constant Region Gene Complex and Immunological Implications. <i>R. W. Hendriks, M. J. D. van Tol, G. G. de Lange & R. K. B. Schuurman</i>	535
Ability of Pure Resting CD8 ⁺ Human T Cells to Respond to Alloantigen. <i>T. Leivestad, R. Halvorsen, G. Gaudernack & E. Thorsby</i>	543
Primary and Secondary Responses to (NANP) Peptides by <i>Plasmodium falciparum</i> Sporozoites in Various Strains of Mice. <i>G. Del Giudice, Q. Cheng, D. Mazier, J. H. E. T. Meuwissen, G. E. Grau, G. Corradin, A. Pessi, A. S. Verdini & P.-H. Lambert</i>	555
T-Cell Phenotypes after Stimulation of Human Mononuclear Cells by Pokeweed Mitogen or Pokeweed Mitogen Bound to Erythrocytes. <i>H. G. Uiterdijk, M. van der Keur & F. C. Breedveld</i>	563
The Interaction of Ethanol with Human Monocyte IgG-Fc Receptors, Characterized by Monoclonal Antibodies Raised against Two Distinct Receptor Subpopulations. <i>B. Morland & H. Morland</i>	573
Recognition of Idiotypic Structures in the Thymus. <i>M. Zöller</i>	579

A Prospective Study of Immunoglobulin Changes in Relation to Human Immunodeficiency Virus Infection in a Cohort of Homosexual Men. <i>G. Bratt, L. Waldenlind, G. von Krogh, A. Karlsson, L. Moberg, G. Biberfeld & E. Sandström</i>	589
T-Cell Recognition of Measles Virus Haemagglutinin Studied in a Mouse Model. <i>M. J. Mäkelä, R. H. Smith, G. A. Lund & A. A. Salmi</i>	597
Induction of Interleukin 1 α (IL-1 α) and IL-1 β mRNA Expression and Cellular IL-1 Production by Anti-HLA-DR Antibodies in Human Monocytes. <i>T. Palkama, M. Sihvola & M. Hurme</i>	609
Specific Depletion of Mature Lymphocytes from Human Bone Marrow. <i>C. Geisler, J. Møller, T. Plesner, E. Dickmeiss, G. Pallesen, J. K. Larsen, N. Jacobsen & A. Svejgaard</i>	617
SHORT PAPER. Engraftment of T-Depleted Major Histocompatibility Complex-Mismatched Bone Marrow in T-Deficient versus Natural Killer-Deficient Recipients. <i>O. Schofer, H. J. Buettner, M. Kraemer, F. Zepp & W. Mannhardt</i>	627
Volume 29, No. 6, June 1989	
Expression of Activation Markers on CD4 ⁺ and CD8 ⁺ Cells from Synovial Fluid, Synovial Tissue, and Peripheral Blood of Patients with Inflammatory Arthritides. <i>J. Hovdenes, G. Gaudernack, T. K. Kvien & T. Egeland</i>	631
A Analytical Study of Purified CD4 ⁺ and CD8 ⁺ Cells Isolated from Synovial Fluid of Patients with Rheumatoid Arthritis and Other Arthritides. <i>J. Hovdenes, G. Gaudernack, T. K. Kvien, T. Egeland & O. J. Mellbye</i>	641
Characterization of the Blood Mononuclear Leucocytes Producing Alpha Interferon after Stimulation with Herpes Simplex Virus in Vitro, by Means of Combined Immunohistochemical Staining and <i>in Situ</i> RNA-RNA Hybridization. <i>K. Sandberg, A. E. Gobl, K. Funa & G. V. Alm</i>	651
Sideways Killing: The Cytolysis of Fc Receptor-Bearing Cells through Bridging to Cytolytic T Lymphocytes by Antibodies Specific for the T-Cell Receptor-T3 Complex. <i>M. Ito, O. Usuba, J. C. Unkeless, R. Schreiber, F. Celada, C. A. Bona & T. M. Moran</i>	659
Effects of Purified Protein Derivative (PPD)-Activated Syngeneic Epidermal Cells on a PPD-Specific Rat T-Helper Cell Line. <i>A. Scheynius, P. Larsson, C. Skoghund, R. Holmdahl & L. Klareskog</i>	671
Gamma Interferon Induces the Appearance of a CD4 ⁺ , Major Histocompatibility Complex Class II ⁺ Macrophage Subpopulation in the Rat Peritoneal Cavity. <i>P. O. Ericsson, G. Hedlund, M. Dohlsten, R. Carlsson & H. O. Sjögren</i>	679
The Effect of Gamma Interferon on Interleukin 1 Release of Human Monocytes. Dependence on the Activating Agent and Correlation to the mRNA Levels. <i>M. Sihvola & M. Hurme</i>	689
Human CD4 ⁺ 8 ⁺ -Derived Clones. Phenotypic and Functional Characteristics and Variation between Donors in Patterns of T-Cell Receptor γ Gene Rearrangements. <i>S. E. Christmas</i>	699
Differential Sensitivities of Purified Human Eosinophils and Neutrophils to Defined Chemotaxins. <i>E. Morita, J.-M. Schröder & E. Christophers</i>	709
Regulation of Interleukin Adhesion Molecule-1 Expression on Endothelial Cells with Correlation to Lymphocyte-Endothelial Binding. <i>R. Renkonen</i>	717
Specificity of $\gamma\delta$ Receptor-Bearing Cytotoxic T Lymphocytes Isolated from Human Peripheral Blood. <i>V. Bosnes, R. Halvorsen, I. Skaftadottir, G. Gaudernack & E. Thorsby</i>	723
Increased Thymic Size and Thymocyte Interleukin 2 Production in Androgen-Resistant Mice. <i>N. J. Olsen & W. J. Kovacs</i>	733
Adjuvant Effect of Cholera Toxin on the Mucosal Immune Response to Soluble Proteins. Differences between Mouse Strains and Protein Antigens. <i>A. D. Wilson, C. R. Stokes & F. J. Bourne</i>	739
SHORT PAPER. Absence of Major Histocompatibility Complex Restriction in the Interaction between Processed Basic Protein and Ia of Two Rat Strains. <i>A. Friedman, O. Lider, E. Beraud & I. R. Cohen</i>	747
Announcement	751
